

JIT Pipeline Trace — BM g uc1 sql n count matching rows a low s MEDIUM t jit analysis

The chart displays JIT pipeline metrics across 30 passes, categorized into five phases: Prune (grey), Initial (light blue), Fixpoint (orange), Post-fix (green), and Final O3 (purple). Vertical dashed red lines mark Fixpoint iteration boundaries (F0, F1, F2). A dark blue line tracks the 'Pass: metric unchanged' status, and red vertical lines indicate 'Pass: metric changed'.

Instruction count

Function count

Basic block count

Per-pass wall time

IR changed per pass (red = 'modified')

Pass index
